

RPM-800

Model RPM-800 is a fully-automated palletizing system that is versatile and cost effective that can build an accurate pallet at an average rate of *30 containers/min.* Robot Packaging has pre-engineered our systems to provide compact modules that are easy to setup and operate using EasyPallet Software. We offer entry-level palletizers that can be expanded and configured to handle an increase or change in production needs. RPM-800 can simultaneously palletize up to two production lines, and is designed to handle a broad range of products and slip/tie sheets without tool changes.

FEATURES:

- Motoman MPL-80 Robot
